

**Dr. Al Fournier** is Associate Director of the Arizona Pest Management Center (APMC) at the University of Arizona, and chairs the IPM Assessment Leadership Team. He has Ph.D. training in IPM assessment and survey methodology, interviewing and qualitative data analysis. His Ph.D. Work at Purdue University focused on adoption and implement of IPM in public schools. He provides evaluation support to all extension IPM teams and projects (community IPM and agricultural IPM), and guidance on measuring the adoption and impacts of IPM. He works with Assistant in Extension Wayne Dixon to develop data and technological tools for IPM Assessment.
