Section 18 Application/Permit – Transform WG – 16 AZ 001

Assigned Permit # _____

Signature ADA Employee Issuing / Date _____

-----*(above this line department use only)*-----

The US EPA has approved an emergency exemption for the use of Tranform WG to control sugarcane aphid in sorghum. All use must be reported on a 1080 to the Department, including grower self-applied Transform WG. When reporting the usage, on the 1080 form behind where you enter your grower permit number, append the assigned permit number from above behind your grower permit number. All Section 18 labeling directions must be followed. **Pay attention to the AZ label for more restrictive pollinator protections.** All labeling and the assigned permit number must be in possession of the applicator. *Sellers are required to see this permit in order to sell you this insecticide.*

Applicant Name _____ Grower Permit # _____

Total Acres _____ *Total statewide acres limit is 26,000. So please only include acres you intend to treat. When we reach 26,000 acres we will no longer be able to issue permits. Thanks for your help.*

Name of Person Making Recommendation _____

PCA License # _____ (check if grower self-recommendation)

Criteria for Determining Emergency Exists: I declare that an emergency exists in the fields this use is being requested for based on the following:

Signature of PCA or Grower as Applicable _____

Check appropriate for applications:

___ Custom Applicator Custom Applicator # _____

___ Private Applicator

I agree to follow all directions, laws, and rules relating to the use and application of this pesticide.

Signature of Applicant _____ Date _____

(Completed form must be returned to licensing@azda.gov, faxed or mailed)
