# M.S. Fellowships in Ecohydrology of Forest Health and Restoration

## THE UNIVERSITY OF ARIZONA

---

M.S. candidates are being sought for a new training fellowship in Ecohydrology at the University of Arizona, located in Tucson. The program is designed to develop key skills necessary for working at the critical interface between ecology and hydrology. Fellows will obtain their degrees from the School of Natural Resources while simultaneously interacting with the Department of Ecology and Evolutionary Biology and the Department of Hydrology and Water Resources. The School of Natural Resources integrates Watershed Management and Landscape Studies; the Departments of Ecology and Evolutionary Biology and of Hydrology and Water Resources are routinely ranked among the very best among relevant peer institutions. The University of Arizona is a public, Research I, Land Grant Institution.

Funding for the Fellowships is provided by the U.S. Department of Agriculture and will include an out-of-state tuition waiver, if needed, and a \$18,000 stipend per year for up to two years. The training program is led by a team that spans the three core academic units: Drs. David D. Breshears, D. Phillip Guertin, Travis E. Huxman, and Paul D. Brooks; other key faculty participants include Drs. Kathleen Lohse and Shirley A. Kurc. Applicants must be U.S. citizens. Interested candidates from groups that are traditionally underrepresented within Natural Resources are particularly encouraged to apply. Starting date could occur by August 2007 for the fall semester or January 2008 for the spring semester. For application materials, contact Academic Coordinator Cheryl Craddock at [ccraddoc@email.arizona.edu](mailto:ccraddoc@email.arizona.edu) or (520) 621-7260.

To apply, send (e-mail preferred) a cover letter summarizing your background, relevant experience, motivation and interests, a resume including relevant coursework, and contact information for three references to either:

Dr. D.D. Breshears ([daveb@u.arizona.edu](mailto:daveb@u.arizona.edu)) or Dr. D.P. Guertin ([phil@snr.arizona.edu](mailto:phil@snr.arizona.edu))  
School of Natural Resources  
1311 E Fourth St.  
BioSciences East 325  
The University of Arizona  
Tucson, AZ 85721-0043.

Drs. Breshears and Guertin can be contacted for additional information about the program prior to applying. Review of applications will begin March 1, 2007 and will continue until the Fellowships are filled.
