

Plant Biotechnology

PLS/MCB/EEB 424R-524R

Instructor- Eliot Herman

Tue Thu 11 am- 12:15 pm

The growing global population will require enhanced agricultural products. The basic and applied sciences are synergistically working together to meet these critical needs. This course encompasses the current science of plant biotechnology, its applications, and its future role.

Listed prerequisites (SPS 340, 360 are NOT required), email instructor at emherman@email.arizona.edu if there are enrollment problems.
